

# "Playing it Safe"

Strategies to Reduce Environmental Risks to Child Health

## Workshop Description:

This workshop will share important information about environmental risks to child health and provide simple child proofing tips and strategies to reduce the risks to preconception, prenatal and child health.

Training will also be provided remotely via WebEx. For more information, visit: [www.bcrrhrn.ca](http://www.bcrrhrn.ca)

\* Please note that in consideration of those with allergies or respiratory problems, this conference is a scent-free event. Please refrain from wearing perfume, cologne or other scented products.
